online blinds

MEASURING WORKSHEET – **Roller Blinds**

Hints:

-Measure exactly where you would like the blind to fit. (Allowances are made at the factory)

-Use a metal tape measure.

-Always measure width (horizontal) first then length (vertical).

-Measure the width at the top, middle and bottom and use the top measurement.

-Measure the length at both sides and the middle. Use the smallest measurement.

Use this information to complete the ordering section on the website.

Window Location/Number	Inside / Outside Fit	Width (mm)	Height (mm)	Control Side L / R	Front / Back Roll	Fabric Colour	Control Unit colour	Chain Colour	Bottom Rail Colour	Chain Length
